Batteries

Yes please: All common types of batteries. Disposable batteries, composite batteries, rechargeable batteries and lead batteries

No thanks: Car batteries and batteries weighing more than 3 kg

Handling: All batteries should be disposed in the same bin.

Tape exposes poles. In other cases the battery has a sufficient built-in short-circuit protection.

Please be aware that too many batteries put together are heavy to lift.

Please note that no cartons/boxes intended for special waste or chemical waste may be used.

Huddinge: Send the waste box by way of the supply station (Försörjningstation) to the in-house recycling station (Miljöstation) S32.

Solna: Order pickup by the icon "transportbeställning" on the first page on Inuti. Or, call Servicecenter, tel. (585) 81 000.
