

# Supporting lifestyle changes, improving outcomes of care

LIVE INCITE aims to empower patients and support lifestyle changes in order to improve outcomes of surgical procedures as well as cost effectiveness of healthcare providers.

## Challenging the market to create a solution

Through the use of pre-commercial procurement LIVE INCITE aims to both challenge and stimulate the market to develop patient-centred interactive IT-solutions, promoting lifestyle changes.

## Open market survey prior to the pre-commercial procurement (PCP):

LIVE INCITE will conduct a three-step PCP, where the majority of the EU funding will be allocated to the participating companies. To prepare this PCP, LIVE INCITE will initiate a market survey to gain insights about innovative concepts and solutions to the LIVE INCITE challenge.

Company may visit [www.karolinska.se/en/live-incite](http://www.karolinska.se/en/live-incite) for information about LIVE INCITE and monitor [www.upphandling.sll.se](http://www.upphandling.sll.se) for information about when and how to respond to the market survey.

## EU funded project in the ICT domain

**Horizon2020:** PCP – eHealth innovation in empowering the patient

LIVE INCITE is a 3 year project supported by EU through Horizon2020, in a call for performing a Pre Commercial Procurement (PCP) for services based on ICT technologies that can empower hospitalised patients, outpatients and their families/carers to support a continuum of care across a range of services.

**Partners:** Karolinska University Hospital (Lead procurer) in Stockholm, Sweden, Hospital Clinic in Barcelona, Spain and Bispebjerg/ Frederiksberg Hospital in Copenhagen, Denmark, and Karolinska Institutet. **Contact:** [martina.ahlberg@karolinska.se](mailto:martina.ahlberg@karolinska.se)

*It is well known that lifestyle factors strongly influence complications and mortality, therefore patient behavior change is vital.*
